

Minutes of Meeting		
Date:	09/30/2026	
Subject :	OIS Participation Council	
Chair :	Kevin Lobbezoo	
Attendees :	Anne-Marie van Holst	Kevin Lobbezoo
	Helen Jonker	Denisa Stoican
	Andrea Hoffman	Arnaud Meunier
	Bethan Chewter	
Absent with Apologies :		

Meeting Notes:

1	Introduction / New year Kevin opened the meeting and noted that this will be his last year on the PC, as Tess is in group 7. A new PC member will therefore need to be found during this school year. The vacancy will also be announced at the General Information Session on October 1st.

Participation Council

2	Housing updates The PC is happy with the renovation work that took place during the summer period. The last items, in particular for the reception desk, including the bulletin points and some smaller items, will be completed during the autumn break. The secondary school building is also working out well, although the fitness facilities are still being worked out from a certificate perspective. Initial issues were reported with the sound wall between classrooms. The situation will be reviewed to determine whether this has since improved.
3	Learning environment The school is working on improving the learning environment in the building, for example through items on the walls, the books available and other resources for the children. The aim is to have resources available for specific projects throughout the year. The school is also looking at improved cooperation with the library of Floriande.
4	Grand Opening October 28th The planning of the Grand Opening was briefly discussed. Arnaud and Denisa will join the event.
5	Kiss and Ride The school and PC wants to limit the traffic on the road in front of the school to prevent accidents. The road may not be used as a kiss and ride, but in practice it is being used as one. Closing the road during school opening and closing hours would be the best solution. This will be discussed with the municipality. Kevin will ask during the parent meeting if parents wants to join the Traffic committee.
6	Any other business Kevin offered to work on a voluntary day. Anne-Marie indicated that the IB already provides opportunities to link projects to real-world projects and that the school will explore this further internally. Denisa asked about the new tool that is being introduced to replace Learning Ladders. The PC wants to ensure that the new system works effectively and asked whether the introduction could first be shared with the PC, allowing the setup to be reviewed and challenged before it is rolled out more broadly. Arnaud asked a question about the Group 5 merger. No parents joined the drop-in session this morning, which seems to indicate that parents understand the decision that was made.
